

## Mahindra Powerol conducts 'GCDP' for its overseas service technicians

**Jan '14:** Mahindra Powerol recently conducted its 'Global Capability Development Program (GCDP) – Phase II' for the overseas service technicians from 23<sup>rd</sup> January, 14 to 31<sup>st</sup> January, 2014. The training program was structured considering the real world usage practices (RWUP) of countries and helping the service technicians to improve their skills, workmanship and confidence in handling technical matters on the field. The 9 days program mainly focussed on providing hands on experience in overhauling/ rebuilding of engines & alternators. It also covered troubleshooting of technical complaints along with hands-on experience of handling different types of controllers.

**Participants of the GCDP**

**Hands on Engine Rebuilding**

A total of eight participants from **African countries of Zambia, Nigeria, Rwanda and Saudi Arabia** were trained by various faculties (including MHEPL), who are experts in their fields. The training was organised at Chakan premises of MHEPL & Powerol plants. Hands-on performance checking & testing of engine, alternator, controllers and complete DG set were conducted. A pre-test & post-test was done for the training to assess & gauge the training effectiveness, followed by an overall feedback to the participants.

On the concluding day, the participants visited Kandivali for an interaction & feedback session with Mr. P. Palaniappan, Sr. Vice President & Business Head – Powerol followed by "Certified Mahindra Engine Rebuild Technician" certification to all the participants.

This is one of the initiatives taken by Powerol International Business in sync with the Rise philosophy of **Driving Positive Change**.
